3. 2018-2019 The Israeli hyperbaric and diving medicine

9. Educational Activities

Courses taught

2014-2019	Tutor, Clinical clerkship in otolaryngology, 6 th year medical students; Faculty of Medicine, the Hebrew University, Jerusalem, Israel.
2021-2022	Tutor, Clinical clerkship in otolaryngology, 6 th year medical students; Faculty of Health Sciences, Ben Gurion University of the Negev, Be'er Sheva, Israel
2023-current	Coordinator, Clinical clerkship in otolaryngology, 6 th year medical students; Faculty of Health Sciences, Ben Gurion University of the Negev, Be'er Sheva, Israel
2025	Introduction to Neck Mass and Vertigo, 4 th year medical students; Faculty of Health Sciences, Ben Gurion University of the Negev, Be'er Sheva, Israel

Research students**MD Thesis**

1. 2014 Liad Hadad, MD Thesis, Cytological Expression of Kinins and Kinins Receptors in Patients with Chronic Rhinosinusitis with Nasal Polyps, The Hebrew University and Hadassah School of Medicine, Jerusalem, Israel

Co-instructor: Prof Doron Halperin; Dr Meir Warman

2. 2015 Ruth Shnipper, MD Thesis, The Use of Bed Side Percutaneous Tracheostomy for Palliative Care in Non-ICU Patients. The Hebrew University and Hadassah School of Medicine, Jerusalem, Israel

Co-instructor: Prof Doron Halperin; Dr Adi Nimrod

3. 2016 Eden Arberboy, MD Thesis, The influence of Body Mass Index (BMI) on Upper Airway Anatomy – A Radiology, Ct Based, Analysis. The Hebrew University and Hadassah School of Medicine, Jerusalem, Israel

Co-instructor: Prof Yonatan Lahav

4. 2017 Alma Karmar, MD Thesis, Histological characterization of the antro-choanal polyp. The Hebrew University and Hadassah School of Medicine, Jerusalem, Israel.

Co-instructor: Prof Doron Halperin; Dr Meir Warman

5. 2017 Evelyn Tukeyev, MD Thesis, Differences in the Immune Response in Smoker and Non-Smoker Nasal Mucosa. The Hebrew University and Hadassah School of Medicine, Jerusalem, Israel

Co-instructor: Prof. Doron Halperin; Dr. Meir Warman

6. 2017 Itai Amos, MD Thesis, Long Term Outcome for Endoscopic Dacryocystorhinostomy (DCR). The Hebrew University and Hadassah School of Medicine, Jerusalem, Israel

Co-instructor: Prof. Doron Halperin; Dr. Meir Warman

7. 2020 Pnina Hirsh, MD Thesis, Impact of Drainless Neck Dissection Using Evicel Tissue Fibrin Sealant on Surgical Outcome – A Matched Case-Control Study. The Hebrew University and Hadassah School of Medicine, Jerusalem, Israel.

Co-instructor: Prof. Avi Hefetz

8. 2020 Noa Dagul Amiad, MD Thesis, Drainless complicated thyroid surgeries – a case control study. Medical school, Tel Aviv University, Tel Aviv, Israel

Co-instructor: Prof. Avi Hefetz; Prof. Ophir Hendzel

9. 2023 Noa Talmor, MD thesis, The impact of Neutrophils to Lymphocytes ratio on the outcome of patients undergoing total laryngectomy, Faculty of Health Sciences, Ben Gurion University of the Negev, Beer Sheva, Israel

Co-instructor: Dr Tzachi Yamin

10. 2023 Bar Zigdon, MD thesis, The impact of expert performed ultrasound on parathyroid adenoma localization compared with other modalities, Faculty of Health Sciences, Ben Gurion University of the Negev, Beer Sheva, Israel

Co-instructor: Prof. Avi Hefetz

11. 2023 Talia Ben-Simon, MD thesis, The impact of type of surgery on iatrogenic vocal cord paralysis, Faculty of Health Sciences, Ben Gurion University of the Negev, Beer Sheva, Israel

Co-instructor: Prof. Moti Kraus; Dr. Yuval Slovik

12. 2023 Larisa Aizkovich, MD thesis, Surgical outcome and quality of life following starplasty tracheostomy, Faculty of Health Sciences, Ben Gurion University of the Negev, Beer Sheva, Israel

Co-instructor: Dr. Uri Yoel; Dr. Merav Frenkel

13. 2023 Liroy Carkuli, MD thesis, Thyroid carcinoma in the elderly – Specific clinical and histopathological characteristics and treatment consideration: A retrospective cohort study, Faculty of Health Sciences, Ben Gurion University of the Negev, Beer Sheva, Israel

Co-instructor: Dr. Uri Yoel; Dr. Merav Frenkel; Dr. David Shacham

14. 2023 Mai Harris, MD thesis, Medical School for international health. The trend in Bethesda system for reporting thyroid cytopathology categories' distribution over time – A retrospective study, Faculty of Health Sciences, Ben Gurion University of the Negev, Beer Sheva, Israel

Co-instructor: Prof. Daniel Kaplan

15. 2023 Maayan Fanian, MD thesis, Post operative adherence of patients with thyroid cancer following initial surgery to the recommendations of the medical staff-identifying a population at risk of compliance, Faculty of Health Sciences, Ben Gurion University of the Negev, Beer Sheva, Israel

Co-instructor: Dr. Uri Yoel; Dr. Merav Frenkel

16. 2023 Gaby Beigel - Retrospective evaluation of the association between seasons and idiopathic tinnitus. Approved 2024. Faculty of Health Sciences, Ben Gurion University of the Negev, Beer Sheva, Israel

Co-instructor: Prof Daniel Kaplan, Dr Oren Ziv

Co-instructor: Prof Daniel Kaplan, Dr Oren Ziv

17. 2023 Stav Abikasis - The Effect of Face Covering During the COVID-19 Virus Outbreak Era on the Demand for Hearing Aids. Approved 2024. Faculty of

Health Sciences, Ben Gurion University of the Negev, Beer Sheva, Israel

Co-instructor: Prof Daniel Kaplan, Dr Oren Ziv

18. 2023 Noa Sheffer - Association between post-tonsillectomy fever and postoperative complications. Faculty of Health Sciences, Ben Gurion University of the Negev, Beer Sheva, Israel

Co-instructor: Prof Mordehai Kraus, Dr Oren Ziv

19. 2025 Shavt De Porto - The Specific Impact of Known Neonatal Hearing Impairment Risk Factors on Auditory Tests Outcome and Hearing.
20. 2025 Meit Lotem - The Impact of Active Smoking on the Course of Hospitalization of Patients with Peri tonsillitis and Peritonsillar Abscess. Co-instructor: Prof Benzion Joshua
21. 2025 Aurian Esias - Association between hemithyroidectomy and gestational hypothyroidism and its impact on obstetric and perinatal outcomes
Co-instructor: Dr Oren Ziv, Dr Tzachi Yamin

MPH Thesis

1. 2024 Basil Alsana, MPH thesis, Risk factors for revision tympanic tube insertions. Faculty of Health Sciences, Ben Gurion University of the Negev, Beer Sheva Israel. Co-instructor: Dr. Anat Reiner-Benaim; Dr. Oren Ziv
2. 2024 Zaid Zaid, MPH thesis, Risk factors for revision functional endoscopic sinus surgery (FESS). Faculty of Health Sciences, Ben Gurion University of the Negev, Beer Sheva, Israel. Co-instructor: Dr. Anat Reiner-Benaim; Dr. Oren Ziv

10. Additional Functions

Ben-Gurion University of The Negev

- 2023 Member, Continuous Surgical Medical Education Forum, Soroka University Medical Center, Beer Sheva, Israel
- 2024 Member, Faculty of Health Sciences, Education committee, Ben Gurion University of The Negev, Beer Sheva, Israel
- 2024 Member, 4-year medical student program admission committee
- 2024 Member, Teaching Committee, Assuta Medical Center.

Other functions

18. Teaching Statement

Medical education has always been an integral part of my daily clinical routine. This belief stems from my diverse experiences, whether as a naval officer, where I embraced the roles of mentor and educator, or as an SAT instructor during my studies, revealing that effective teaching is a profession with acquired tools and methodologies.

My journey as a medical educator commenced early in my training as a young resident, teaching students and guiding MD thesis candidates. Motivated by the enthusiasm of interns eager to learn, I dedicated time to mentor, guide, and teach. This commitment is evident in my collaborative publications with students and interns, recognizing their contributions and co-writing with those who embraced the challenge.

As a dedicated educator aspiring to enhance the academic excellence of Ben Gurion Medical School, my teaching goals are rooted in fostering curiosity, promoting self-learning, and exposing students to diverse approaches in the medical field. My commitment extends beyond the classroom to equip students for independent clinical investigations and research, particularly during the pivotal phase of medical residency.

I believe in cultivating an environment that ignites curiosity and nurtures self-directed learning. My aim is to inspire students to question, explore, and take ownership of their educational journey, fostering a lifelong love for learning.

Recognizing the dynamic nature of the medical field, I intend to expose students to a spectrum of medical approaches. By integrating diverse perspectives into the curriculum, I aim to broaden their understanding and prepare them for the complexities of their future careers.

As medical residents, students need skills and tools for independent clinical investigations and research. My goal is to empower them with knowledge and methodologies essential for meaningful contributions to medical science.

To achieve these goals, I designed a Self-Learning Courseware for head and neck oncology, ensuring active engagement with the material. Additionally, I propose a scientific writing workshop focused on clinical research to enhance research skills. Integrating medical students into ongoing research

projects will provide exposure to cutting-edge developments and instill a sense of collaboration within the medical school.

Assessment and evaluation will be facilitated through Feedback Through Lectures and Self-Learning Courseware, allowing real-time adjustments to course material based on students' needs. Morning Rounds and Clinical Engagement will assess practical application of knowledge, bridging the gap between theory and clinical practice.

Looking ahead, I propose the Integration of Technological Trends, a University Course for Medical Students, and Clinical Research from A to Z. Incorporating current technological trends and developing specialized university courses will enhance student involvement and critical reading skills. A pre-internship course in clinical research will prepare students for active research involvement.

In conclusion, my teaching philosophy centers on empowering students with knowledge, skills, and a passion for continuous learning. I am committed to creating an educational environment that prepares students for the challenges of the ever-evolving medical landscape.

My commitment to staying at the forefront of educational innovation is unwavering. I envision the integration of current technological trends to enhance student engagement, aligning with the fast-paced nature of the medical field.

In essence, my teaching philosophy revolves around creating a dynamic and inclusive learning environment that nurtures the next generation of medical professionals. By setting ambitious goals for student learning, employing innovative teaching methods, and continually evaluating and refining our approach, I am confident that together we can contribute to the academic excellence of Ben Gurion Medical School.

I am enthusiastic about the prospect of joining the esteemed faculty at Ben Gurion Medical School and contributing to the growth and success of its students. Thank you for considering my application, and I look forward to the opportunity to further discuss my teaching philosophy and potential contributions in person.
